HIMANSHU GUPTA

RKGIT, Ghaziabad, Uttar Pradesh

☎ +91-7007585510 ✉ himanshu.gupta.developer@gmail.com GitHub Portfolio LinkedIn

OBJECTIVE

- Aspiring **Full Stack** and **Web Applications Developer** with a strong grasp of DSA (100+ LeetCode problems) and hands-on experience in **building 3+ full-stack projects**.
- Proficient in building **scalable backend APIs** and responsive frontends.
- Experienced in leveraging **AI tools** and modern frameworks for innovative product development.
- Demonstrated organizational and **Project Management Skills** through technical roles and leadership positions.
- Seeking growth-driven opportunities as a **Full Stack Developer Intern** or **Software Developer**.

EDUCATION

RKGIT Ghaziabad   **2023 – 2027**
B.Tech - Information Technology — CGPA: 8.3   *Ghaziabad, Uttar Pradesh*

EXPERIENCE

Instaprep AI   **August 2025 – November 2025**
Full-Stack Developer Intern (3 months)   *Remote*
- Developed and deployed key modules including **Confidence Test Page**, **Shots**, and **Preps Content** using **React.js**.
- Resolved 20+ UI/UX issues, optimized API response times, and improved user navigation flow for better engagement.
- Collaborated with the design and backend teams to integrate REST APIs and ensure mobile responsiveness using **Tailwind CSS**.

PROJECTS

HimxMeet | MERN + WebRTC   **August 2025**
- Real-time video conferencing application built with WebRTC, supporting chat, screen sharing, and user authentication.
- Implemented signaling, session handling, and basic room management for stable peer connections.

TripSync | MERN   **September 2025**
- Hotel booking platform with separate **Host and User panels**, supporting property listings, search, and booking management.
- Built using **MVC architecture** with robust middleware for authentication, error handling, and data validation.

Thok-Bazar | E-commerce   **October 2025**
- Developed E-commerce platform with separate user, seller, and admin panels.
- Implemented product management, order handling, payment integration, and dashboard analytics.

TECHNICAL SKILLS

Frontend/Web Design: Front End Languages, HTML, CSS, JavaScript (ES6+),Typescript, React.js, Tailwind, Bootstrap
Backend/Full Stack: Full Stack Development, Node.js, Express.js, REST APIs, MySQL, PostgreSQL, MongoDB, Next.js, WebRTC
Tools: Git, GitHub, GitLab, VS Code, Windsurf, Cursor, ChatGpt, Gemini, Copilot, Postman, Docker
Other: Python, Programming Languages (C++), DSA, Computer Science Fundamentals, Responsive Design, Web Applications

ACHIEVEMENTS

∗ 1st Prize – Tech Trivia 3.0
∗ Finalist – Binary Hackathon 3.0; Finalist – Bi-Blitz
∗ Active participant in coding and problem-solving competitions.

POSITIONS OF RESPONSIBILITY

Technical Member – Society **Electraz**; served as **Mentor in RoboWar event** and **Discipline Committee Member** in several events.
